Pastel - A Comprehensive Guide To Pastel Painting (PBK)

Synopsis

One of the nation's foremost portrait painters provides a complete, step-by-step guide to pastel painting. Covering everything from materials through techniques, the book presents Greene's observations of the manipulative qualities of pastel, along with methods of using it.

Best Sellers Rank: #665,259 in Books (See Top 100 in Books) #82 inÂ Books > Arts & Photography > Drawing > Pastel

Customer Reviews

This book was published from 1974 to around 1997 without, as far as I know, any revisions to the book. The bulk of the illustrations are in black and white, the supplies available to pastel artists has changed quite a bit over the last 35 years, but even so the text still holds up and contains valuable insights from a master portrait painter.

Very disappointed that there's not more colour imagery in this book and to be honest, most of the information has already been spouted before, so not a lot of new instruction. I wouldn't buy again if given the opportunity.

Great book, written by the great master portrait artist and painter himself. Has excellent copies of his works and he explains how he accomplishes them.

A hands on of the use of pastel from the master of pastel Daniel Greene. An in depth explanation of how to. Eleanor Roosevelt's pastel portrait in the white house is done by no other than the master himself, Daniel Greene

I like lots of examples and pictures. This book was mostly text. It was just a little too dark for me.

Love Daniel Greene's work and teaching style. Wish it had more color photos but I enjoyed it anyway. Would recommend.

you need this book never mind that the photo quality is poor because it is an old publication the information is invaluable
