Nautical Scenes To Paint Or Color (Dover Art Coloring Book)

Synopsis

From a diminutive rowboat on a pond to a grand luxury liner by moonlight, these 23 illustrations portray an appealing variety of nautical scenes. Realistic drawings depict a deserted beach, fishermen at work, a tranquil alpine lake, a sailboat regatta, and other evocative images. Each page is perforated and printed in light gray lines that virtually disappear when painted or colored, resulting in a professional-looking finished product.

Customer Reviews

I like this book about Nautical Scenes to paint or color. The lines in it are very light and easy to cover up. I do acrylic painting, and am also into markers and other kinds art media. I would recommend this book to others who enjoy art.

I was pleasantly surprised with this book. Beautiful scenes. Quality paper. I have others from this company and have been pleased with them also.

Very detailed and pretty pictures. Crayons wont work. This is for colored pencils. Great educational tool for homeschoolers, I would think.

I bought this for my 93 year old dad who loves art, but has lost his skills. This book is perfect to keep him interested in his lost skills. He has used both water color and colored pencils for the nautical renderings. Great book!

So I wanted an adult type of "coloring" book and this one missed the mark. The pages are lacking inspiration and the illustrations seem very old fashion. It may be a start in painting nautical scenes, but don't expect too much.

Great coloring book, not really for kids..we bought it for a handicapped family member who enjoyed it. Great coloring book, not really for kids..we bought this for a older family member who has dementia, (Alzheimers) and they enjoyed it a lot....a nice hobby for someone who might otherwise be physically confined.

I brought it for my mother to have something to do. It is a very nice book. I like the fact that you can paint on the page also.

The scenes in this book allow for a lot of different things to color. It's not all the same. That's what makes it interesting.
