Customer Reviews

Roxy keeps you engaged right from the start. She is very honest and open about her personal and professional relationships. She keeps it real concerning her love for sex but also her awareness that there are opportunities to use her sexuality to bring financial opportunities in her life. The chapters flow very well and Roxy just makes you want to read more and more. I will definitely follow her on Social Media and come out to one of her events and get this booked signed someday!

Most of the reviews on this book were negative because people failed to actually see what it was about & look up what she said was in her book. I watched one of her interviews and it was exactly what she said it would be! The book is hot & very, very interesting. It was written very well also. It's thought provoking too! Definitely not for the faint of heart.

And I loved this honest, heartfelt memoir written by my cousin. Who could ask for more? There are juicy little bits and pieces here and there, Roxy gives us a few tips to excite our own lives a bit and even goes into why and how she fell into the lifestyle/career that fuels her daily. I'm so proud of u!!

The book was relatively enjoyable. I would not classify it as being a tell-all nor as a female empowerment book. I do however feel that it provided different techniques for women to improve upon in relation to their bodies and with sexual performance. She also featured many of her sexual fantasies and some personal encounters that were anonymous. Overall a decent book for her first try, which was very classy.

This book by Roxy Reynolds was not what I expected...it was a whole lot more. Roxy gives excellent tips and suggestions. The book was very well written, with class, not raunchy. It was a look into her life and how/why she is where she is today. I highly recommend this book.

Definitely not impressed...great for someone who likes an easy read with lots of sexual references. I expected more. It's almost like a fake tell all. I love Roxy but I'd rather watch her porn than read her books.

I've been a fan of Roxy since she came on to the scene in the mid 2000's and she has been the best performer in the adult scene since then and now she takes on another journey and becoming an author. I pre-order the book in advance and was excited to read the book when it arrived to my home. No lies Roxy went totally authentic in her debut book and every chapter will leave your, "MIND, BODY & SOUL SEXUALLY STIMULATED"! There's a ton of teachings and tricks that Roxy will teach you, lessons that Roxy learned during her times in the adult industry and what she gains from it. She give exclusive insights on some of the male performers that she did business with. Some of the stories are crazy and intense. But it will make you have an orgasms. No lies. This book is a must of your a Roxy Reynolds fan or love adult erotica books. I recommended this book to friends of mines so go out and purchase this amazing book. You won't be disappointed!!!!

#TrueFacts

I thought it will be a well written book telling about her life and how she started what made her become an adult star but you get none of that. Just her describing her having sex and whatever else she was talking about.
