Underwater Dogs

Synopsis

The exuberant, exhilarating photographs of dogs underwater that have become a sensation From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus and determination of a shark. In more than eighty portraits, award-winning pet photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In *Underwater Dogs*, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.

Customer Reviews

I received my copy of "Underwater Dogs" on Tuesday and I without a doubt think this is the best dog photography book I have ever seen and I actually own quite a few as I am a huge dog lover. The pictures in this book are unlike anything I have ever seen up until a few months ago when I, like thousands of other people, discovered Seth Casteel's website and his amazing underwater photos. Not only are the photos themselves so unique but the clarity of them are incredible and the colors

just pop!! The expressions on these waterloving dogs are something out of a Dr. Seuss book. Who knew dogs looked like this underwater? I will tell you who knew, Seth! And he captures these expressions with amazing skills and what is one heck of a good camera. These pictures are as professional as you can get and yet there is such a playfulness that it keeps it from being unlike any other dog portrait book. As for the actual book itself I was impressed at how well the book is made. A book of this quality could easily sell for 2 - 3 times this price. At \$12 this book is a steal and I, for one, plan to "steal" about a dozen more copies to give as Christmas presents to my dogloving friends and family. The other thing I really like about this book is that it is a true coffee table book. Some coffee table books have way too much writing. Guests sitting on your couch don't want to read a War and Peace novel. They want a book they can flip through and look at pictures. But as fun and entertaining as these pictures are I don't think anyone could just flip through this one. They will have to look at each and every page as every page offers an entirely different view of the underwater life of dogs.
