Ok if you just want skulls, all of five stars books look likeThey were just thrown together to make money. One book the pagesWere printed on the wrong side. The skulls were hap hazardly drawn.I have been coloring in adult coloring books since 1993.If they would have been in a store would not have purchased them.

Only about 7 actual pictures of skulls, the rest are mandala type pictures. Many of the pictures seem to be of poor quality (very thick lines, don't look very good). One of the skulls was about 2-3 inches big and just a plain outline of a skull. I would not purchase this book again.

This coloring book was what I was looking for. It was a good value. The only down size was the

amount of pages. I was hoping it would have more. The pages didn't come out very easily and they were 2 sided. If you used markers, they bled through and you weren't able to use the image on the other side. Perfect for colored pencils or crayons, just not markers.

To have this book has been so exciting and fun. It can take away stress because of its unique designs. This book has many beautiful skull designs not only 7 pictures of skulls. They are beautiful and high quality. I would purchase this book again and recommend to my friend.

When I received this book, I was so excited. Some books I have to put paper behind it so it don't bleed. Using color pencils makes the skulls look awesome. When do new skull books come out.

It is very nice coloring book. However, it is more for a child than an adult. There is no challenge, just pretty pictures.

Very cute and fun to color and a great price I'm very pleased with this purchase

I think I found what I am looking for. This coloring book for adult is so nice and so captivating. The skull designs are awesome because they are all unique and can be a source of creativity in the sense that all colors you wanted to use for it are suited. This is the best way to relax your mind from a very stressful day. I really love it and definitely buy lots to be distributed to my relatives.
