Synopsis

The must-have reference on construction product representation—and the essential study aid for the Certified Construction Product Representative (CCPR) Exam The CSI Practice Guides are a library of comprehensive references specifically and carefully designed for the construction professional. Each book examines important concepts and best practices integral to a particular aspect of the building process. The CSI Construction Product Representation Practice Guide is an authoritative resource for the principles and best practices of effective construction product representation. This easy-to-follow guide includes: Coverage of the construction process and the roles the construction product representative can play in it Information that clients require to select appropriate products to meet project requirements Knowledge, preparation, and use of construction documents The role the product representative plays in an Integrated Product Delivery (IPD) workflow Access to a password-protected website with bonus content, including a PDF of the printed book and copies of CSI format documents, such as UniFormat™ and SectionFormat™/PageFormat™ The CSI Construction Product Representation Practice Guide is an essential resource for building product manufacturers, sales representatives, and related professionals and a valuable study aid to help prepare for the Certified Construction Product Representative (CCPR) Exam.
