Customer Reviews

I love this book! I am an avid colorer and I have more than 40 coloring books, so I have seen a lot of them. I love the crisp pictures in this book. The designs are interesting. No people or animals, in case that is something you like or don't like to color. The pages can be pulled out easily without worry of ripping them and the paper is a good quality. The price is also good for what you are getting. I would recommend this book to any of my friends.

While the designs and drawings are wonderful, I just wish that people and companies publishing coloring books would realize that two page drawings and designs are impossible to display and that printing on both sides of a page severely limits the choices of coloring media and also makes it hard

ton display.
