Customer Reviews

I own two other coloring books by Jenean Morrison; however, this the first of her â œPatternâ • style coloring books that I have purchased. There are 36 different designs; however, the designs have been done in two ways, so you get a total of 72 coloring pages. The designs range form mandalas to patterns in a rectangular format.Each design is done as a black line drawing on white background and also a similar style but with many of the elements filled in with black. This should make coloring the design a little easier for someone new to coloring while the designs without black give a great opportunity for the advanced colorist to use their blending and shading skills.For my first two projects, I chose to do a study of the same mandala in both styles available in the book. The first one is done with Tombow water-based markers on the design with black elements. The second one is done with a mix of alcohol-based markers and Tombows on the more intricate line drawing. It was interesting to see how the black color made the design look very different from the design where I

choose all of the colors.I will provide a more comprehensive discussion of what I found in the book below for those who care for that level of detail. Here is an overview of the major points:72 Designs Pages â “ 36 Designs done in two styles eachDesigns printed on one side of white non-perforated paperGlue bindingDesigns do not merge into the bindingAlcohol and water-based markers bleed through pageGel pens and India ink pens leave color shadows on back of pageColoring pencils work very wellThe designs in the book are printed on one side of white non-perforated paper. Usually, designs are printed on the right hand side of the book.

This is one of the artists that I follow and I have purchased all of her coloring books as they are published, I love her style with her imaginative and artistic , balanced patterns, every detail is distinct and coloring her patterns always relaxes me.The cover picture is included in this wonderful coloring book and is representative of the art style in all of the illustrations , you will find 5 circular floral patterned mandala illustrations x 2, the other illustrations are full page patterns, centered on each page and you will find floral patterns like the cover and geometric shape patterns.This is going in my personal coloring library, I love playing with colors in these patterns.1. 37 full page pattern illustrations and each is printed twice, one has black accents filled in the other one is completely white, and they are placed in this book facing each other. I love this unique layout in this book, it adds an element to the coloring experience and gives you the chance to color the same pattern illustration with different colors or use one to test colors to decide which you are going to use on your final picture.2. 37 illustrations printed 2 x for a total of 75 illustrations to color, printed one per page, (the back of each page is blank) on light weight bright white paper.3. All the illustrations are centered on each page and leave a Ã Â â • space between the binding and the image, this is plenty of space to easily remove a single page from this book or cut off the binding for coloring groups.4. All my markers both Alcohol based (Sharpies, Bic mark it, Copic) and Water Based (Koi, TomBow, Triplus) bleed through the paper so I place a piece of scrap paper under the page I am coloring to prevent damage to the next picture.
