Customer Reviews

Gives you a great idea of what to do when you're drawing someone's face and skin. I will definitely use it.

I was not impressed with the book. I am an art teacher, and the images in the book (scans of drawings) are poor. The steps are not easy to follow along with. It jumps steps too far to follow along with. Some advice is good, however it is written in poor English. She is a very good artist, it is just not a good step by step (how to book). I bought it to show my niece some colored pencil techniques, it didn't do the job. Very disappointed.

I like her drawings , I like to see her drawings bigger.She is good with colors , like to see more of her.

Disappointing. Did not illustrate drawings as expected. Only good thing is the name of pencil colors for skin, etc.

i dont want this produce please help me
