Customer Reviews

In these difficult economic times Marianne Williamson's new book, "The Law of Divine Compensation: On Work, Money, and Miracles" is a refreshing reminder that God's love is the true source of our abundance. "Finance is just one of many areas where an increasingly obsolete, materially based worldview is proving to be inadequate to the challenges of the times in which we live," Williamson writes in the preface of her book. The author's message of God's unconditional love trumping worldly possessions resonated with me. I found myself underlining passages in page after page for future reference (the most words I've highlighted in any book I've read this year). Williamson is not preaching to us from the mountain top. Similar to her writing style in other books, she is very vulnerable with her own struggles - this time in the financial realm. In "Divine Compensation" she tells a story of how she lost \$10,000 early in her speaking career due to poor event planning. "Oh Daddy," she recalls telling her father, "It was such a bomb!" Williamson

describes how this personal misfortune taught her a lesson. After consoling words from her father, she relates how she chose to think about this incident was the key to transforming it to positive experience. She could either see it "as proof of utter failure and doom or as an opportunity to forgive myself and attract a miracle." Williamson, in being open with her own shortcomings, gives the reader a sense of being counseled by a friend, rather than being lectured at by a "know it all" spiritual guru. I wasn't expecting to read about the value of forgiveness in a book about work and money, but according to Williamson a forgiving spirit is essential in attracting our own good.
