I am slowly working my way through this little book. The pictures are detailed and quirky. Is great fun to do, and because the pictures contain the unexpected, you can let your artistic imagination go wild with the colours you use.

Bought this as a present. Loved it so much, have ordered the companion adult coloring book about Paris! It's not actually a "book", it's a cool foldout of eight pages which makes a great poster if you wish to keep it. Similar to a map, so you can appreciate how large this city is! Hours of fun coloring in this "book", and learning about London. Think I'll order one of each for myself!

I've always wanted to visit London, so I'm really enjoying coloring and learning from this book. It features a 9-inch tall, single panorama of London, featuring tiny people among all the sights to see. Since it is folded, accordion-style, I can color a little bit at a time. The back shows a detailed plan for a stroll to see the most famous landmarks of London, with interesting facts about each. It's really fun to color and I think it would make a great decoration or a fun gift for someone planning a trip to London.

This book was a let down after buying "Medieval Times" same format. Medieval Times had figures and a street scene to color.. "A Stroll in London" is like a cartoon. All stick figures and yes buildings and landmarks, but it doesn't have the appeal the other book did. In fact I haven't even started coloring it.

Drawings of cityscapes were good but the people were caricatured which I was not wanting. Prime service good as always.

Lots of detail you'll find tiny markers for parts of this one. Looking forward to keeping busy with it! Love of the different sites it shows of one of my favorite towns, London.

Fun, crazy stroll through my favorite city ! Different from all the other coloring books on the market. Have a go !

I've bought this as a gift for colored-pencil and London enthusiast, and it's really cute. I think she'll love it.
