Improve Your Sight-Reading! Piano: Level 2 / Elementary (Faber Edition: Improve Your Sight-Reading)

Synopsis

This is the brand new edition of Paul Harris' very popular Improve Your Sight-Reading! Piano series! The covers now contain US levels! Now more than ever, the ability to sight-read fluently is an essential part of the pianist's training, whether playing alone, as an accompanist or with ensemble. This workbook is designed to help overcome the nerves that can cause sight-reading problems. Step by step it helps the player to create a complete picture of each piece, first through rhythmic and melodic exercises related to specific problems, then by the study of prepared pieces with associated questions for the student to answer, then finally to the real, unprepared sight-reading test itself. Check-boxes for each stage allow both teacher and pupil to keep a record of progress.

I've worked through the first volume and am now halfway through the second. My sight reading skills have definitely improved since starting this series. I find the exercises provided also work well to develop finger strength.

I havent used this book yet, but it is in the same style as the Grade 1 book - very methodical and logical in the concept presentation. I think it is a good book for exam preparation and will be using it for my students.

I can see the clear improvement in my son's sight-reading. Very detail instructions, friendly guiding, and step by step approaching.

This is a good study for sight reading. I expected a identity the notes workbook; it isn't. It is good for what is.

The book met all my expectations. It was exactly what I thought it would be. I Thank you very much.

Hard to find. Well worth it. Methodical study. Good value. A highly disciplined approach. Not easy to find online. Probably not easy to find anywhere.
