# Music! Its Role And Importance In Our Lives, Student Edition

## Synopsis

The book was written for all students, not just the musically-gifted. It encourages students to view music from a social context rather than as abstract information.

## Customer Reviews

This is an excellent text for high school general music. Though somewhat dated (publication date is 2005), it integrates the exploration of contemporary music into more traditional topics of music study. Well-researched and well-written. Great book!

The material inside is actually very good, but if you don't have the music CD's the book is pointless. I tried desperately to get cd's everywhere, but they could not be obtained. I thought the book came with CD's but it didn't. I can't use it for what I wanted. A new version comes out in 2016, Ended up being a waste of money, as I can't even get rid of it.

Just as expected
