Nice collection. Offers appropriate challenges related to reading music all in a package of attractive pieces. It got me excited to try another and another.

I teach private lessons and have been using this book for years. I had to buy a new book because I use it so much my old one is worn out! It has a nice variety of duets with varying levels of difficulty. It is both challenging and rewarding. There are a few duets my beginners can play, but most of the duets are for intermediate and advanced players. My students love this book. I would recommend it to any private lesson teacher.

The book as a descent selection of music. Be aware that most are half a page with repeats. Page 30 is an awesome piece!

Great book for guitar. Yes, I said "guitar"! I teach and am sick of the usual dumbed-down guitar methods. This is a great book as clarinet (as written) is in the exact range of the guitar. Great for sight reading practice or to learn these pieces. I can read them with students and they really enjoy playing them. AND, because they're duets students get double for the money when reading them at home. Good stuff!

Duets make studying an instrument more interesting and even fun. This is a good book for just that purpose. I recommend it.

Recommended by my son's music teacher. They now enjoy playing duet selections. Appropriate for an intermediate level player.

Excellent duets. Mostly intermediate level. Some make good concert pieces. The Mozart set are fine for recitals, and very playable even at a lower level of technical skill.

Challenging duets for 2nd year clarinet student and his grandfather
