If you like Taylor Swift and have a guitar, buy this book! I just bought a guitar and had 2 lessons in my whole life and i learned to play her songs in this book! Easy to understand and play!

This is a great book. I got it for my daughter to learn on piano and guitar. She was thrilled and it is exactly what she wanted. Good arrangements, not for beginner piano. Easy guitar and intermediate piano level.

Bought this for my daughter who just started playing about three months ago. The book is easy to follow and she was playing parts of songs in just an hour or so. This isn't a replacement for lessons with a teacher but it does bring some fun into learning for young players. She spends hours playing these songs after doing her regular lesson. It has really helped keep her interest up.

My youngest daughter loves Taylor Swift and her songs, and this book has renewed her interest in practicing the piano. What more could a mother hope for? Not only does it have the complete piano arrangement, but it also has all the guitar cords, too.

The piano perfectly matches up with the tune, the vocals are 100% accurate. I don't know about the guitar part, but I can imagine that is correct as well. If your looking to play the TUNE of the song, this is a great book, The piano is can be a little tricky with timing at times, but once you get the main beat of the song, it's a real fun book to play!

This was one of the first guitar books I purchased when I started playing. I'm still learning but I've enjoyed learning how to play these familiar songs. The guitar tabs are simple and it is very easy to follow.

I was looking for a book with guitar chords, but was a little disappointed to learn that this is a beginner piano book. Each song is in giant print, spanning 4 pages or so. And the guitar chords don't have fingering...just A, G, B#, etc. Am still deciding if it's worth it or not. I would have preferred a book with the songs consolidated to 1-2 pages and fingering charts for the chords. This isn't it.

I bought this for my little sister and she loves it. The music is NOT the oversimplified version which is always a concern I have when I buy music online. Good stuff.
