For the money, it is a good book and has enough variety so you won't get bored. It would of been a hit with me had they made the arms, legs and hands of the animals non-human in form. As it is the pictures are just animal heads on human bodies.

Along with volume 2, Cool Cats, this is my favorite coloring book by far! It's nice that they are printed one-sided but I cut them out and print them onto card stock so I can color them more than once if I want. They are fast and easy and so much fun!

This coloring book is just 2 funny!! There is a tiger dressed in a knit sweater with zebra striped pants, glasses, a necklace and a purse. Then there is the boy mouse with the little straw hat, little bow tie, suspenders, blue jeans with heart patches on the knees and rolled way up to show his striped socks and tennis shoes. There are dogs, deer, rabbits etc. dressed in some funny outfits, that's for sure. The paper is a little thin and it was not perforated so you could tear the pictures out to color.

She loves it, bought this for our 6 yr old grand daughter whom is an avid adult colorer. She has about 30 adult books and loves this one. She said it makes her smile and doesn't take near as long to color as some of her other ones.

I love this coloring book. The animals are so cute and fun to color. I wish they had backgrounds but it is still a great book. The pages are one sided and the paper is pretty good quality.

DO NOT have 4 pcs of Bubbalicious in your mouth when opening the package, you may choke to death when you start laughing. I have a hard time pretending to like the numerous boring pony and puppy coloring pages my daughter gives me and expects me to keep forever. With this book, I will genuinely enjoy framing these masterpieces.

This is my first foray into adult coloring books and I haven't been disappointed. This book is full of hilarious depictions of hipster animals and the paper quality is great.

this is such a fun book.....cute pictures and I draw backgrounds on each one to fit the animal.....so much fun
